

REMARKS

Applicant has carefully reviewed and considered the Office Action mailed on February 26, 2003, and the references cited therewith.

No claims are amended, canceled, or added; as a result, claims 18-44 are now pending in this application.

Double Patenting Rejection

Claims 18-44 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 20-46 of co-pending Application No. 09/942,201.

Applicant respectfully submits that claims 18-44 are not claiming the same invention as that of claims 20-46 of copending Application No. 09/942,201.

Claims 18-44 of this Application are directed to a memory device including memory cells, internal circuitry, interconnects, and metal contacts, and other elements.

Claims 20-46 of the copending Application No. 09/942,201 are directed to a system of high-conductivity metal alloy contacts.

Thus, the claims of this Application and the claims of the copending Application No. 09/942,201 are not claiming the same invention. Accordingly, Applicant requests that the rejection of same invention double patenting be reconsidered and withdrawn and that claims 18-44 be allowed.

CONCLUSION

Applicant respectfully submits that the claims are in condition for allowance and notification to that effect is earnestly requested. The Examiner is invited to telephone Applicant's representative (612-373-6969) to facilitate prosecution of this application.

If necessary, please charge any additional fees or credit overpayment to Deposit Account No. 19-0743
